

## **Privacy Policy**

**Last updated:** July 2026

### **Overview**

NoDelay is designed to help users reduce playback delay during YouTube live streams by automatically adjusting the playback speed when appropriate.

We respect your privacy. NoDelay does not collect, sell, or share your personal information.

### **Information We Collect**

NoDelay does **not** collect personal information such as:

- Name
- Email address
- Phone number
- Physical address
- Payment information
- Browsing history
- Search history

The extension does not track users across websites.

### **Local Storage**

The extension uses Chrome's local storage (chrome.storage) only to save user preferences, including:

- Automatic or manual mode
- Delay target
- Playback speed settings
- Language preference
- Other extension configuration options

These settings remain on your device unless you choose to remove them.

### **Website Access**

NoDelay operates only on supported YouTube pages where live streams are available.

The extension reads playback information required to calculate the current live delay and adjust playback speed accordingly.

NoDelay does not collect or transmit the content you watch.

### **Data Sharing**

No user data is sold, rented, or shared with third parties.

### **Remote Services**

NoDelay does not transmit personal information to external servers as part of its normal operation.

If future versions introduce optional online services, this Privacy Policy will be updated accordingly.

### **Security**

The extension stores only the minimum information necessary for its operation and follows Chrome Extension security best practices.

### **Children's Privacy**

NoDelay is not directed toward children under the age of 13 and does not knowingly collect personal information from children.

### **Changes to This Privacy Policy**

This Privacy Policy may be updated from time to time. Any changes will be reflected by updating the "Last updated" date above.

### **Contact**
